Everything your store needs

From the first product to clear reports.

01
Products and stock
Categories, images, SKUs, prices, variants and custom fields — all in one place.

02
Receiving goods
Search or scan barcodes; stock levels update immediately.

03
Sales and reversals
Sales by customer and channel, automatic stock and easy reversal.

04
Orders and customers
Order statuses, partial fulfilment and customer conversations.

05
Public catalog
Share the link on Instagram; customers pick variants and order or ask.

06
Analytics and reports
Stock, sales, revenue and top products; import, export and PDF reports.

How it works

From first setup to a clear view of your business — in three steps.

01 Create your store
Sign up with Google and get your Shop ID right away.

02 Add your products
Enter products, receive stock and connect your team in a few clicks.

03 Track your results
Sell, scan and follow revenue and stock through clear reports.

READY TO START

Open your store today.

Registration is free. No installation — it works on your phone.
